Hygiene Seating Solutions

Safety & Comfort for Hygiene Care

BRODA[®]

When it comes to hygiene care, the right shower commode chair can make the difference between a negative bathing experience and a positive one for both patient and caregiver. That's why Broda shower commodes have unique features to make hygiene comfortable and safe for everyone involved.

Broda Benefits

At Broda, we promise to promote and preserve the wellbeing of the people who use our products. You can be sure your Broda chair or wheelchair will provide you with the following benefits.

Seating Comfort

We believe comfort is essential to a high quality of life and overall wellbeing.

Positioning

Our products offer postural alignment, pressure relief, and secure seating.

Mobility

Broda will help you reach the independence and social connection you deserve.

Patient Safety

Each of our products protects the user with built-in safety features

Caregiving Safety

We are dedicated to making healthcare facilities safe for every caregiver.

Infection Control

Keeping you healthy is our priority. Our products are easy to clean and disinfect.

Durability

Our long-lasting products are guaranteed by our unbeatable 10-year frame warranty.

Personalization

We'll build a wheelchair to match your style and provide the perfect fit.

Easy Order

Our team of seating and positioning experts are here to guide you through the process.

Lowering Stress in Hygiene Care

According to studies on caregiver burden, bathing assistance has been shown to be the most taxing aspect of care in nursing careers.¹

The most stressful aspects of bathing include...

- Up to five manual transfers
- Challenges dressing & undressing
- Awkward postures and movements
- Struggle to maintain upright patient posture

Hygiene Care Challenges

- Transferring a patient in order to bathe them may be difficult and uncomfortable
- Basic stock equipment may be uncomfortable, overused, worn out, and easily broken
- Patients & caregivers face fall risks in tight, slippery spaces
- Patients are vulnerable and need to maintain their dignity

The Broda Hygiene Difference

Safer Lifts and Transfers

Broda shower commodes enable safe transition options. Plus, the ease of maneuvering the patient reduces the need for adjustments and transfers.

Cleanliness Leads to Happiness

Comfort and dignity during the bathing process increases satisfaction with personal hygiene. This leads to better overall health and quality of life.

Cleanability

Easy-to-remove, minimally textured surfaces make Broda products and their components, such as bed pans and lateral supports, easy to clean.

Ergonomic Design

Broda shower commode chairs and accessories can adapt for a patient in multiple environments or stages of mobility, providing safety throughout the care continuum.

Durable Surfaces

Broda shower commodes feature durable, rust-resistant components that are easy to clean and disinfect between bathing sessions. Unlike basic shower commodes, Broda products provide safe, comfortable bathing solutions that last for years.

10-Year Frame Warranty

Quality products come with quality warranties. Broda guarantees our shower commode frames with an industry-leading 10-year warranty. While other shower commodes break frequently and need replacement, Broda shower commodes stand the test of time.

How Broda Meets Hygiene Needs

- Dynamic tilt & recline provides safe, thorough, and efficient bathing
- Maximum durability with stainless steel frames and rust-resistant parts
- Removable arm supports create more space for safe transfers
- Unparalleled seating comfort reduces agitation and resistance to bathing

“ Broda’s Revive Shower Commode meets our patient’s needs. He indicates he feels safe and he is able to participate in his own care each morning. He is safe at all times while in the chair, and the caregivers are safe at all times while providing his care. All staff report being pleased with the commode and find it much easier to assist him. ”

—Pam
Director of Nursing

Sentinel
